

PRO INDUSTRIAL

0 VOC ACRYLIC

Ideal for areas
where a low-odor,
high-performance
acrylic is critical.

Where Safety Meets Convenience

Pro Industrial™ 0 VOC Acrylic is specifically engineered to be low odor and HAPS free. This ambient-cured, single-component acrylic contains zero VOCs, making it ideal for use on both interior and exterior surfaces found in schools, hospitals, hotels, commercial buildings and industrial sites. It can be applied in occupied areas with minimal disruption.

Unlike Any Competitive Product on the Market

Available in gloss or semi-gloss finishes, Pro Industrial™ 0 VOC Acrylic has excellent color and gloss retention, as well as outstanding application qualities. It is available in all colors, including safety red, safety yellow and black package colors. This low-odor, high-performance acrylic can be applied directly to metal and is rust resistant. This product's fast-drying formula and zero VOCs make it great for both occupied areas and USDA-inspected facilities.

Convenience Meets Durability
