

PRO INDUSTRIAL

HIGH PERFORMANCE EPOXY

Ideal for surfaces
where chemical and
abrasion resistance
is critical.

Where Abrasion is Inevitable and Preservation Critical

Pro Industrial™ High Performance Epoxy is engineered for surfaces where chemical and abrasion resistance is essential. This all-purpose epoxy is specifically designed for industrial maintenance environments and high-performance architectural applications. Its low-odor, low-VOC qualities make it ideal for use in kitchens, bathrooms, shower areas, hallways, laboratories and cafeterias found in schools, hospitals, hotels, commercial buildings and industrial sites.

Meets All Your Epoxy Needs

A high gloss, high-solids epoxy for multiple substrates, Pro Industrial™ High Performance Epoxy achieves high-film build in one coat, eliminating the need for multiple coats. This two-component epoxy comes in pre-measured 4:1 containers, making it easy to mix and apply. It is available in virtually any color, including safety red, safety yellow and black package colors.

Convenience Meets Durability
